

# Barbara Glor Martin '62

Hometown: Grand Island, New York

Major: math/secondary education

I met with Barbara in June at her home in Westerwood, a retirement community, in Columbus. We had a wonderful lunch and talk.

Barbara is one of six children. Two of her sisters, Bernice '61 and Elizabeth '64 were in TEM also. She came to Otterbein because one of her high school teachers, Georgia Turner Mehl '41, attended Otterbein and was also a Temmer.

While at Otterbein, Barbara's job was signing girls in and out of the dorm. During the week, everyone had to be in by 9:00pm and by 11:00pm on the weekend. Each dorm had a "hall mother."

Barbara pledged TEM in '58. During Rush, the girls met in sorority rooms in the basement of Clements Hall or at the homes of advisors. Novelty Party was a sailor theme.

During pledging, she had coke dates. They also had to measure the guys' chest and ankles.

Some TEM activities Barbara shared were the making of the homecoming float, the May Day pole dance, and the annual bon fire where the guys stole outhouses to throw on the fire.

After graduation, Barbara married Brent Martin, a Clubber, and they had two sons. She was a General Math and Algebra teacher at Taft Junior High School in Marion, Ohio. She was an Algebra, Plane Geometry, and General Math teacher at Avon High School in Avon, Ohio. Later, she worked for several companies such as

Nationwide, Scotts Miracle-Gro, Compuware, and Abercrombie & Fitch where she was a contract programmer.

Barbara donated her scrapbook and several pieces of memorabilia. Below is a picture of her beanie that she had to wear each day during pledging. The small paddle, which is only 9 inches long, was her during pledging.
